

Automated workflow with 1st Providers Choice

IMS and Availity integrate to deliver fully automated Clearinghouse Services with Revenue Cycle Management Workflow

A combined solution simplifies claim and payment processing

In a time of declining reimbursement and increased workload, finding ways to improve cash flow is more important than ever. IMS and Availity Revenue Cycle Management (RCM) combine to deliver a solution that helps reduce denials and minimize days in accounts receivable. The result? Cleaner claims, fewer calls to the health plan, and faster payments.

If you have questions or need help, a designated Availity representative is available to quickly address your needs.

IMS and Availity's powerful integration delivers maximum convenience and flexibility by incorporating the following processes directly into your practice's workflow:

- Secure, automated file transfers
- Professional and institutional claims submission (electronic and drop-to-paper)
- Auto-posting of remittance advice (835s) to IMS
- Claim status (277U) posting with plain-language error messages to IMS
- Real-time claim editing from IMS
- Real-time eligibility and benefit verification from IMS
- Patient Statements
- Workers Compensation with Attachments

ENHANCE CLAIMS PROCESSES

As your practice evolves, the following supplementary modules can help you optimize results:

Denial Management

EOB to ERA Conversion

Auto-Secondary Claim Generation

Workers Compensation Claims with Attachments

Drop to Paper Primary and Secondary

Real-time Eligibility

Real-time Claims Editing

Patient Payment to ERA
